

# Enquiry Specification

## 1. Project

- Upgrade of an existing non AHC system to AHC
- Replacement of an existing AHC system
- Entirely new AHC arrangement

## 2. Scope of Supply

- AHC control system only
- Motive components (e.g. motors/ drives, cylinders, etc.) and controls only
- Full AHC device, 'turn key'

## 3. Type of Compensator

- Winch
- In-line (e.g. cylinder & sheaves)
- Hook mounted

## 4. Power Preference

- Electric
- Hydraulic

## 5. Compensation Performance Required

Heave amplitude (peak to trough) \_\_\_\_\_m

Heave period (peak to peak) \_\_\_\_\_s

Load (max) \_\_\_\_\_Te

## 6. Lifting device

Number of falls/parts \_\_\_\_\_

- Crane – knuckle boom
- Crane – fixed boom
- Crane – lattice boom
- Deck winch

## 7. Operation

- In-air
- Subsea      estimated water depth      \_\_\_\_\_ m
